Aqeri : Rugged Certified Military Solutions

Aqeri 9102
Compact, workstation or server

The defence industry sets the most demanding requirements. That's why we are dedicated to offering you the **best of breed in rugged military solutions.**

The Aqeri 9102 is a rugged 19" 2U slim line computer designed to resist the harshest environments :

- * Fully sealed aluminum 19" 2U chassis
- * Suitable for space critical applications (small dimensions and front accessibility)
- * Protected from shocks, vibrations, dust and corrosive elements
- * All connectors accessible from the front
- * 28 VDC power supply (18-36 VDC)
- * Cooling by internal heat-exchanger system
- * Passive backplane with 2 half length PCI slots
- * Mounting space for HDD, FDD, CD-ROM
- * Cardbus adapter for additional expansion
- * Integrated heating and climate control system (operating -20 to +70 degrees Celsius)
- * EMI/RFI/EMC according to MIL-STD-1275 and MIL-STD-461D

Aqeri 9104
Greater expansion and peripheral devices available, disks RAID and server

Based on COTS technology, it can be configured for various server and work station applications.

Our product range includes rack-mount and vehicle-mount PCs, militarised network systems (switch, Cisco® routers), as well as a large range of military-spec displays and peripherals.

Aqeri 9008
Totally waterproof, fanless, ATEX

For more details on Aqeri, militarised network systems, or monitors, please call our sales team on 01243 380780, or click this article.

The Company Profile

With a pan-European presence and offices in England and France, Industrial Computers specialises in the **design and manufacture of Mission Critical Applied Computing Platforms.** Serving markets including **telecommunications, broadcast, military, industrial and medical,** we work closely with our customers to conceive and manufacture the system their market and application requires.

Building from our experience in manufacturing highly reliable computer systems for different industries, our product offering includes a large range of **standardised and customised products.** We are committed to offering you the following advantages :

- * Large standard off-the-shelf product range
- * OEM custom complete system design
- * In house design and manufacture
- * Availability of products up to 5 years and more
- * Full agency testing capability
- * Full revision control and serial number tracking
- * Local technical support
- * ISO 9001-2000 registered (including design control)

At Industrial Computers, we do more than supplying products : we offer solutions to meet any kind of requirement and expectation.

Rack Drawer Monitors

LCD screen (15"/17"/19")

1U rackmount drawer

Multiple keyboard language selections with either touchpad or trackball

* Multi-user KVM with either 16 or 32 ports

* Mix PS/2, USB & Sun with Multi-Platform switch capability

* Slide rails with fixed positions

High Modularity

Easy-to-use on screen display (OSD) interface (17"/19")

1U rackmount drawer

Replaceable keyboard and touch pad compatible with other series of LCD console

* The benefits of modularized KVM switch design

* Connector for KVM module C-36

* Compatible with Sun and Mac PC's keyboard
